

Interior, Refurbishment and Paint

Hawker Beechcraft Services has been providing quality interior refurbishment and paint services to aircraft operators for over 20 years. Expert artisans will tailor your specifications to provide you with solutions for improved function, comfort, performance and appearance while increasing the value of your aircraft.

Full Interior Services

- **Factory interior options.**
The following current production interior options can be installed in your aircraft: seating, cabinets, arm ledge, headliner, lighting and lavatory
- **Handcrafted soft goods upholstery.**
Carpet, dado panel, sidewall, valance, headliner and seating
- **Custom cabinetry fabrication.**
- **Cabinetry and hard goods finish application.**
Veneer, laminate and faux paint
- **Cabin information and entertainment systems.**
Jet Map II, monitors, wireless remote control, wireless headsets, XM Radio and MP3 interface
- **Electronic window shades.**
(for Beechcraft® King Airs)

Paint Services

Fresh paint has been proven to increase fuel efficiency in aircraft five years old or more.

- **Akzo-Nobel high build primer:** conceals rivets and minor imperfections.
- **Paint to factory specification:** most recent and older designs.
- **Custom designs and renderings:** split base paint designs and vinyl wraps.
- **Refresh, touch-up paint.**

Warranty: paint is guaranteed for three years on metal aircraft and one year on composite aircraft.
