

ATTACHMENT HBC 1023

Revised 3/2007

INSPECTION, GOVERNMENT SOURCE

"Government inspection is required prior to shipment from your plant. Upon receipt of this order, promptly notify and furnish a copy to the Government representative normally servicing your plant so that Government inspection can be appropriately planned. If a Government representative does not service your plant, contact the nearest Air Force, Army, Navy, or Defense Logistics Agency inspection office. If you cannot locate the Government office, or purchasing buyer should be notified immediately."

Drawings and/or specifications and other pertinent data required for Government Source Inspection are available at the supplier's plant and will be furnished to the Government Quality Control Inspector by the supplier.

The supplier will furnish adequate facilities to the Government Quality Control Inspector and grant free access to all phases of the work in process.

Items listed on the attached purchase order or subcontract are subject to all requirements called out on the HBC drawings; HBC specifications, supplier's drawings, and/or requirements specifically called out on the purchase order or subcontract.
