

## Online Service Information (OSI) Enhancements

The following enhancements have been made to the Online Service Information (OSI) library for both subscribers and non-subscribers. Remember, service bulletins and communiqués are technical data so users must register to access this library. See the [What's New dated 3/31/2007](#) for help on registering.

### Removal of the 'Find Serial' button

Users can now type in a serial search without requiring the Model being selected first. A list of suggestions will appear as soon as text is typed in the Serial field.

The dialog box titled "Save this Search?" contains a text input field labeled "Type Name of Search" and two buttons: "Save" and "Cancel". A red arrow points from the "Save this Search?" link in the previous screenshot to the "Save" button.

The search is now saved and will appear in the drop-down selection. Note: searches are specific to the individual Beechcraft and Hawker libraries and are only available to subscribers.

The "Search Criteria" section shows a dropdown menu with the following options: "Premier Mandatory SB", "-- Load A Previously Saved Search --", "Premier Mandatory SB", and "390 Premier I (RB-Serials)". A red arrow points from the text in the previous block to the "Premier Mandatory SB" option in the dropdown. Below the dropdown are the "Serial Number" and "Compliance" fields, with "Mandatory" selected in the compliance dropdown.
