

## Customer Repair

In addition to our overhaul and repair exchange program, Hawker Beechcraft offers a customer repair option for those customers who prefer to maintain their original components.

The advantages of this service include:

- Customer maintenance of their original serial number.
- Competitive pricing.
- Same limited warranty as offered as by HBC (see warranty).
- Easy-to-use, HBC manages the repair / overhaul process.
- Only genuine OEM parts and approved repair / overhaul procedures.
- Exchange units available for AOG or Flight –critical situations.

This service is offered for all rotatable components listed on the HBC website. This service also may be available for additional components not listed on the website. Pricing and lead-time are based on the condition of the customer's unit.
